Subject: Directive to Complete Reclamation and Submit Form W-9, Park Valley Quartzite LLC, Green Beetle Quarry, S/003/017, Box Elder, Utah

Dear Mr. Larsen:

The reclamation surety in the amount of \$18,700.00 being held by the Division of Oil, Gas and Mining for the Green Beetle quarry was deposited through the Utah State Treasurer into an account at Zions Bank. Zions Bank requires form W-9 be submitted to fulfill Internal Revenue Service requirements. A copy of this form is enclosed. Please complete the form as soon as possible and return it to the Division.

The Division requires complete reclamation of the Green Beetle quarry. This must be completed by January 31, 2015. Reclamation tasks to be completed include backfilling all pits, reducing all waste dump slopes to 2H:1V slopes or flatter, ripping compacted areas, replacing the limited topsoil, and seeding.

Rule R647-3-113.5 allows the Division to require reclamation after five years of suspended operations. In addition to the extended suspension period, the reclamation surety is inadequate, permit fees have not been paid since 2007, and the right of way from the BLM has expired.

Failure to meet the requirements of this directive may result in the Division pursuing enforcement action which could include civil penalties (fines) and forfeiture of the reclamation surety.

Please notify the Division, either Lynn Kunzler at 801-538-5310 or me at 801-538-5310, a few days prior to starting reclamation to arrange an on-site meeting to discuss reclamation requirements. Questions about this letter may be addressed to Mr. Kunzler or me.

Sincerely,

Paul Baker
Minerals Program Manager
